01 PERFIL

Senior Full Stack Engineer with 6+ years building modern web and mobile products. Specialized in JavaScript/TypeScript ecosystems and hybrid development, with strong experience across frontend and backend. I work primarily with TypeScript, React, Next.js, Node.js, and NestJS, complemented by GraphQL, databases, cloud infrastructure, and DevOps.

02 EXPERIENCIA

Software Engineer

OCMI Workers Comp

FEB 2024 - AUG 2026
MIAMI · REMOTE

Responsible for the development and maintenance of a comprehensive web application for workers' compensation claims management. The platform supports claims administration, reporting, and real-time analytics. Implemented dashboards, advanced search, external API integrations, automated workflows, and document management with a focus on scalability, security, and reliability.
